Quality First!

SCB SERIES Multi-Stage Centrifugal Booster Pumps

SunPumps SCB series pressure pumps are multi-stage centrifugals designed primarily for boosting pressure from surface water as long as the water supply is at or above the level of the pump. They are ideal pumps for home pressure systems, sprinkler systems or in-line booster pumps.

SunPumps SCB series pressure pumps are very high quality, maintenance free, DC pumps specifically designed for water delivery in remote locations. They operate on 100 to 1500 watts of DC power with 12 through 180 volt models available. They can be powered by batteries or directly from solar panels.

SunPumps SCB series pumps are designed for use in stand alone water delivery systems. They are pollution-free, corrosion-free, self-lubricating and quiet. There is no better way to provide water for remote homes, villages, small farms as well as many other needs beyond grid power.

BATTERY SYSTEM PERFORMANCE

Capacities in U.S. Gallons Per Hour at Discharge Pressure or Feet of Lift

Model Number	DC Volts	Nominal Power Required	20 PSI 46'	30 PSI 69'	40 PSI 92'	50 PSI 115'	60 PSI 139'	70 PSI 162'	80 PSI 185'	90 PSI 208'	100 PSI 231'	110 PSI 254'	120 PSI 277'
SCB 6-40P-12	12 V	300 Watts	510	420	360	240	80						
SCB 6-40P-24	24V	300 Watts	510	420	360	240	80						
SCB 8-40P-24	24V	400 Watts	590	510	470	400	310	210	70				
SCB 12-60P-48	48V	900 Watts	930	870	810	770	710	660	600	520	450	360	220
SCB 22-40P-48	48V	900 Watts	1860	1560	1300	960	360						

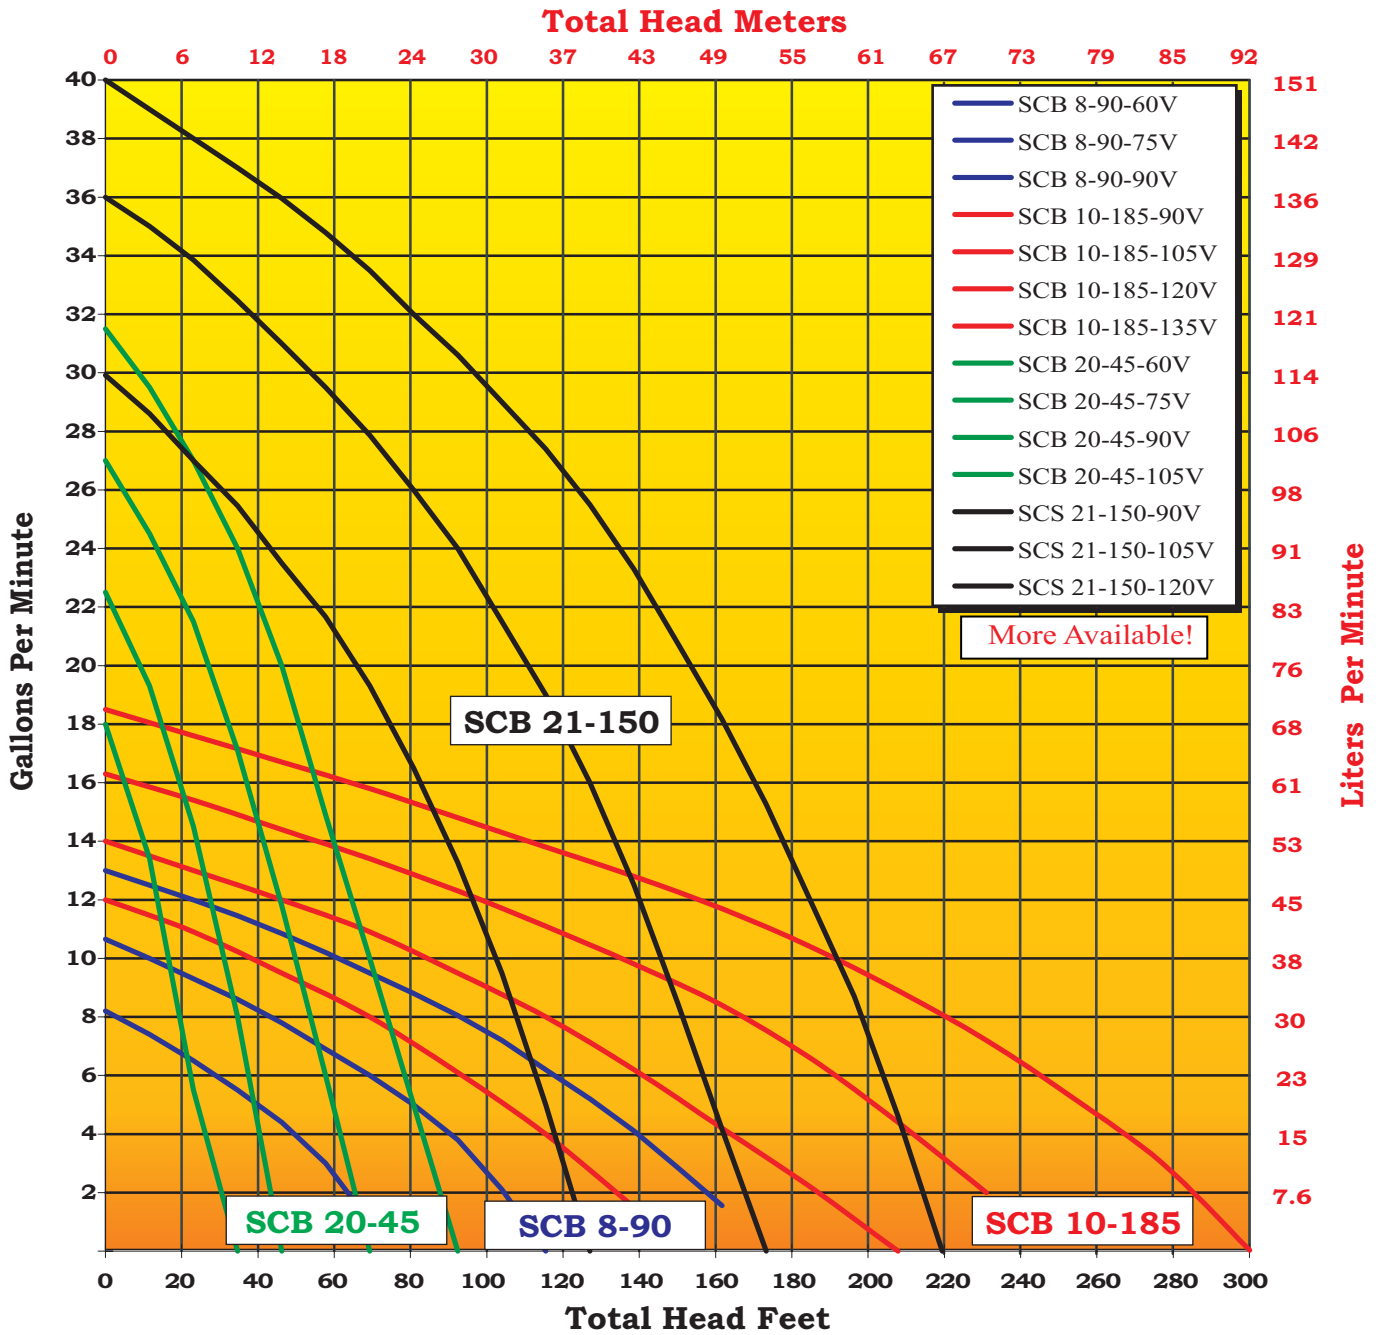

NOTE: Call for availability on the 48 volt pumps.

**Independent Water
Pumping Systems**

Note: On battery systems the head is listed in PSI, on panel direct systems the head in listed in feet.
