

Powertron® is located in one of the largest industrial business parks in the country and is only minutes from Chicago O'Hare International Airport. Our location gives us the ability to tap into a large network of carriers, and we will consistently look for the most competitive shipping rates available. This document covers most technical information regarding our packaging standards and outline shipping specifications such as weight, size, and class size.

For questions and rates, please contact us directly at 847-956-5000 or visit us at [www.powertronsolutions.com](http://www.powertronsolutions.com).

### General Shipping Notes:

- Lift gate truck or loading dock at destination
- FOB Shipping (Powertron® will coordinate and negotiate rates)

### Packaging Dimensions

(Skid not included in dimensions)

Height: 28"  
Width: 37"  
Depth: 24"

Standard packaging is 1 unit per skid. For multiple quantity orders, different packaging methods may apply to allow lower shipping rates.

#### Standard Packaging Includes:

- Top and bottom cardboard tray
- Custom foam inserts
- Wood skid (actual size may vary)
- "Do Not Stack" cone for added protection
- Tip-N-Tell indicators
